19.) **Boundless, Thankful**
20.) **Give Me The Light!!!** (ft. Miguel Atwood-Ferguson)

Los Angeles-based, Seattle-born drummer and producer ***Bobbyy*** returns with the announcement of his sophomore album, ***TACKYY***, arriving **October 16th** via Pink Siifu's new label **Dynamite Hill**, Featuring contributions from artists including *Salami Rose Joe Louis, Sam Gendel, Mndsgn, AKAI SOLO, Tony Bontana, Telemakus, Miguel Atwood-Ferguson, Anthony Ferraro, Niki Randa*, and more.

TACKYY moves fluidly between moods and textures - from ethereal, jungle-inflected compositions to percussive, footwork-inspired rhythms and introspective melodic pieces. A communal approach to music has always been at Bobbyy's core.

Featuring twenty songs and numerous collaborations, TACKYY weaves together a tapestry of jazz, underground club music, and his signature sample chops. Each track was initially cut, looped, and sequenced on an Elektron Digitakt sampler before importing to Ableton for overdubs and collaborations. Centering each song around the Digitakt was an intentional limitation, which enables TACKYY to span across moods, genres, and musical languages while still remaining cohesive.

"*Lands Far Away*" featuring **Salami Rose Joe Louis** is a sharp, ethereal, poignant track built around jungle breaks and angular piano chops that live as a tribute to the beat scene of Los Angeles. "*Blush*" is soft, almost Arthur Russell channeling self-reflective melody fit for your next daydream- featuring **Anthony Ferraro**. "*Warpath*" is a jazz listener's delight- a majestic yet brooding tune with deep, blossoming saxophone played by LA staple **Sam Gendel**.

TACKYY is not only a nod to the sampler that it was made on, but an act of embrace. Embracing the 'tacky' things in life, embracing the hallmark, embracing the positive, self love, and self belief. Samples ring out across the record exclaiming "You've got the magic in you!", "Your soul is smart!" "Give me the light! I want eternal beauty, and spiritual things". On "*Home*" **Demae** sings "Open wide, step inside, life is like a little treasures hunt, you can do whatever you want." Later in the record, **AKAI SOLO** belts "Gentle reminder is to stress less when I inspect self in the mirror". In many ways TACKYY is just that - an album of gentle reminders, an album of aspirations, created with an ensemble of human talent, emotion, and connection.
