

FOR IMMEDIATE RELEASE

**Bobby Releases New Album [TACKYY](#) via Pink Siifu's Dynamite Hill Records
Featuring Pink Siifu, Salami Rose Joe Louis, Sam Gendel, AKAI SOLO, Mndsgn, Demae, Miguel
Atwood-Ferguson & more**

Los Angeles-based, Seattle-born drummer and producer Bobby releases his new album, *TACKYY*, on October 16 via Dynamite Hill Records — the new label founded by Pink Siifu.

Across 20 tracks, *TACKYY* brings together the experimental beat music, jazz, hip-hop and electronic worlds that have shaped Bobby's work as a drummer, producer and collaborator. The album features contributions from Pink Siifu, Salami Rose Joe Louis, Sam Gendel, AKAI SOLO, Mndsgn, Demae, Tony Bontana, Telemakus, Miguel Atwood-Ferguson, Qur'an Shaheed, Niki Randa, Javier Santiago and more.

Every track on *TACKYY* began as a sketch on the Elektron Digitakt, with Bobby using the sampler's limitations as the framework for the record. From there, the songs expanded through live instrumentation, vocals and contributions from a musical community built over years playing with Sunking and High Pulp (ANTI-) and through Bobby's work in Los Angeles.

At the center of the album are ideas of self-belief, self-love and embracing the parts of yourself that might otherwise feel 'tacky. Phrases including "Your Soul Is Smart," "You've Got The Magic," "Give Me The Light!" and "Gentle Reminders" recur throughout the record, creating an intentional through line across its shifting sounds and collaborators.

The album arrives following a run of singles featuring Pink Siifu, Tony Bontana, Anthony Ferraro, Salami

Rose Joe Louis, Sam Gendel, Miguel Atwood-Ferguson and AKAI SOLO. Its release is accompanied by “Home,” featuring Demae, Mndsgn and Telemakus, which serves as the record’s focus track.

Following the release of *TACKYY*, Bobbyy and AKAI SOLO will head out on a U.S. tour together, with dates in Seattle, Portland, Phoenix, Los Angeles, New York, Philadelphia, St. Louis and Chicago. Select shows feature Pink Siifu, DJ Earl, My Favorite Color, Kaicrewsade and more.
